

# MCANJ Membership Meeting Review

February 2020

## Enerpac Presents Its New Tool Line At The MCANJ Membership Meeting.

At Wednesday, February 19, 2020, MCANJ Membership's meeting, the guest speakers were Michael Lee and Jon Bice from Enerpac. Mr. Lee and Mr. Bice spoke about Enerpac's tool line including industrial tools and what they are used for.

They provided examples

of heavy lifting, lowering, and pressing. They also included bolting tools that are hydraulically powered torque and tension tools for critical torque applications as well as equalizer flange integrity tools that are used for spreading, aligning and the removal of pipe and pipe flanges.

Overall, both speakers were very engaging and fielded many questions from the membership. MCANJ would like to thank Michael Lee and

Jon Bice for taking the time to speak to our group and we look forward to having them back in the future.
